Hi Andrea,

I would like to make a comment or two regarding the Midtown Commons project. I've lived at 3035 Schilling Street #B for six years. When Kevin lived with me (my husband), he and I would take our dog, Blanche, on walks in the empty lot where this development will be built. We encountered syringes, aluminum and other drug paraphernalia. Tent cities eventually popped up and people would defecate and urinate outside. They would leave trash, etc.

I would like to say I support the project and think it will increase the value of my townhouse.

Thanks so much for your hard work on this project. I have trust in you that the right decisions will be made to make this area more attractive.

Regards,

Mark Heyka
